ACME Widget Pro 3000
User Manual

Welcome to your new ACME Widget Pro 3000! This manual will guide you through setup, operation, and troubleshooting.

Table of Contents:

Getting Started

Initial Setup:
1. Remove the Widget Pro from packaging
2. Connect the power cable to a standard outlet
3. Press the green POWER button for 3 seconds
4. Wait for the blue LED to stop blinking

Account Setup:
To create your account, visit setup.acme.com and enter the serial
number found on the bottom of your device.

Default Settings:
- WiFi: Disabled (enable in Settings > Network)
- Volume: 50%
- Auto-sleep: 30 minutes

Basic Operations

Password Reset:
To reset your password:
1. Go to Settings > Security > Password
2. Click "Forgot Password"
3. Enter your registered email address
4. Check your email for a reset link
5. Create a new password (minimum 8 characters)

Volume Control:
Use the side buttons (+/-) to adjust volume, or say "Hey Widget, volume up/down" for voice control.

WiFi Connection:
1. Go to Settings > Network > WiFi
2. Select your network from the list
3. Enter your WiFi password
4. Press Connect

Troubleshooting

Device won't turn on:
- Ensure power cable is securely connected
- Try a different outlet
- Hold POWER button for 10 seconds to force restart

WiFi connection issues:
- Ensure you're within range of your router
- Restart your router and the Widget Pro
- Check if other devices can connect to WiFi

Blue light keeps blinking:
This indicates the device is updating. Do not unplug during updates.
Updates typically complete within 5-10 minutes.

Factory Reset:
To restore factory settings, hold POWER + VOLUME DOWN for 15 seconds.
Warning: This will erase all personal data and settings.
